

DHANUSH

FRONTEND DEVELOPER

[LinkedIn](#) | [Portfolio](#) | [Github](#) | [Email](#)

PROFESSIONAL SUMMARY

Passionate and dedicated frontend developer with a strong foundation in **React.js**, **JavaScript**, and **Tailwind CSS**. Equipped with a solid understanding of HTML, CSS, and Adobe Photoshop. Recently completed an internship, gaining hands-on experience in creating dynamic and responsive web applications. Demonstrates a keen eye for detail and a commitment to delivering high-quality user experiences. Eager to contribute fresh perspectives and technical expertise to a forward-thinking development team.

PROJECTS

Food delivery App

[Preview](#)

(Reactjs, Tailwind CSS)

- Developed a dynamic Food Delivery App using React.js, enhancing user experience with responsive and interactive features.
- Utilized Tailwind CSS for designing a modern, sleek, and mobile-friendly interface, ensuring consistency and scalability.
- Implemented efficient state management and seamless navigation to provide a smooth and intuitive user journey.
- Integrated real-time data to display live updates of food items and order statuses, improving user engagement and satisfaction.

Youtube clone

[Preview](#)

(Reactjs)

- Created a YouTube Clone using React.js, replicating key features such as video playback, search functionality, and user authentication.
- Implemented responsive design to ensure seamless viewing across various devices and screen sizes.
- Utilized React hooks and state management for efficient data handling and dynamic user interface updates..
- Integrated API services to fetch and display real-time video content, enhancing user experience with up-to-date information.
